# The AI wave is here, but readiness is uneven across local ecosystems

- Small businesses strongly desire AI tools, but usage maturity varies wildly.
- Adoption reports swing from 7.6% to 58% depending on technical confidence and access.
- The local gap: Owners have no in-house IT and are overwhelmed by the noise.

# Why current market solutions fail the local business owner

## In-Person Setup

## Monthly Optimization

**We help local shops  
use practical AI tools  
safely and profitably**

## Plain-English Training

We come to your shop and handle the configuration. No tech headaches.

We stay involved to refine workflows and ensure measurable business outcomes

We train your staff in simple terms so the tools actually get used.

# Championing the 5-40 employee owner-operator

## The Salon / Spa

Ending no-shows and managing complex appointment workflows without a dedicated receptionist.

## The Restaurant / Cafe

Answering late-night customer DMs and standardizing daily inventory checklists.

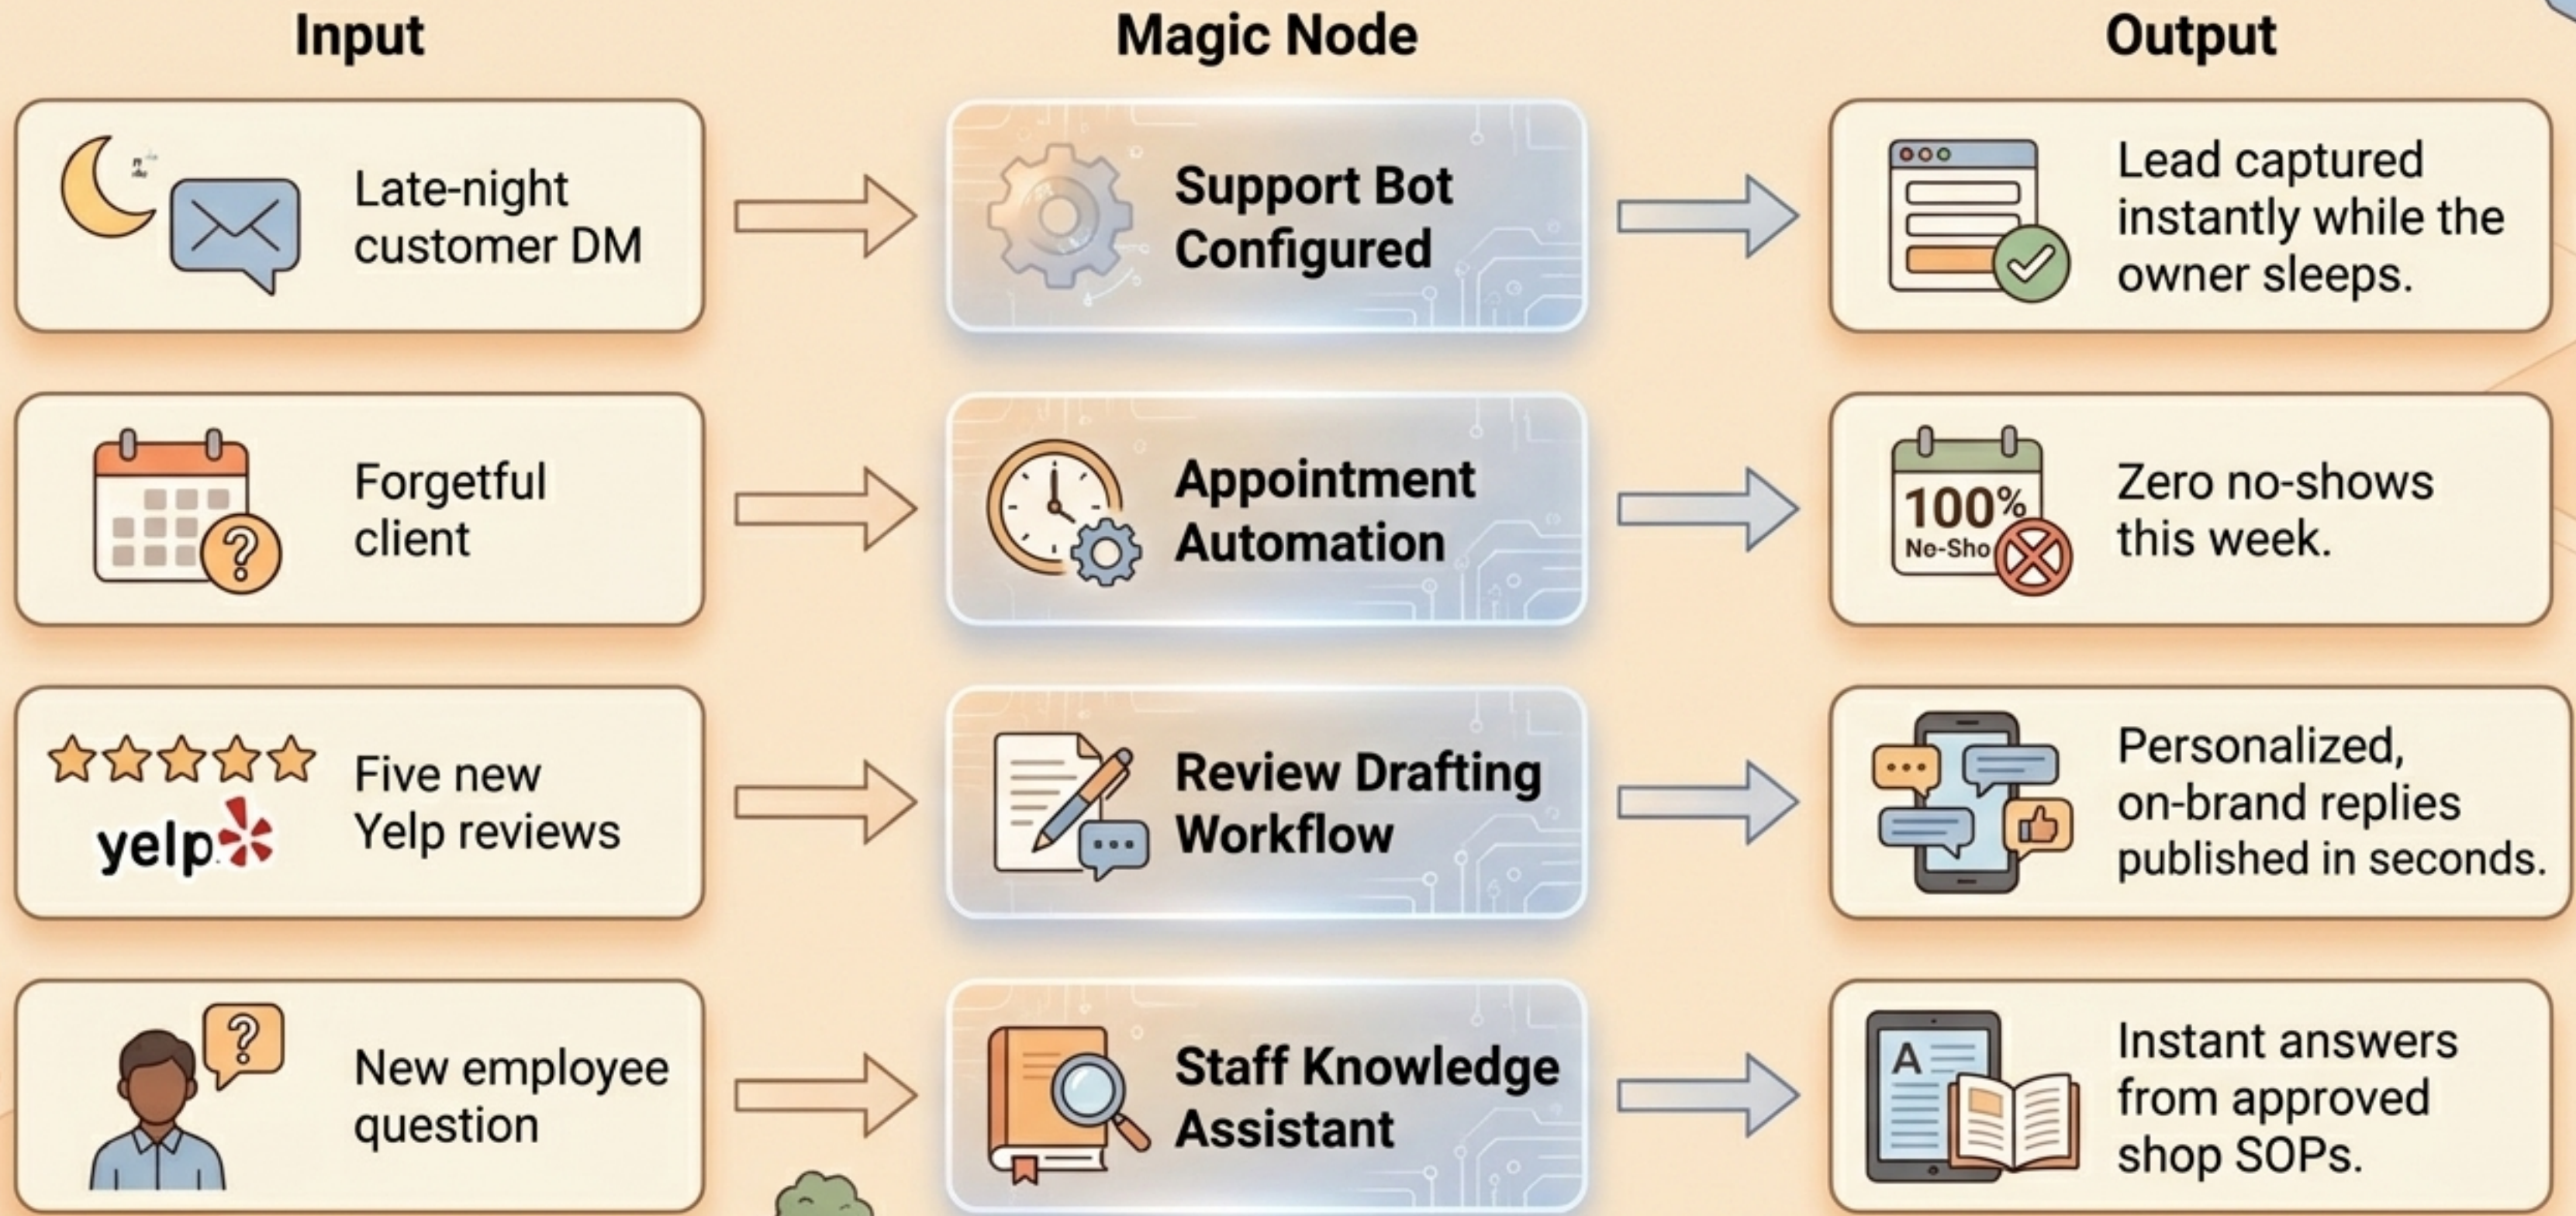

## The Specialty Boutique

Drafting customer review responses and internal staff knowledge sharing.

**The common thread:** Repeatable operations, strong local presence, zero in-house IT.

# Delivering practical outcomes, not technical jargon

# A transformation in daily operations

## The Before Journey

- Buried in late-night admin

- A stressed, overwhelmed team

- Missed customer messages

- Disjointed, manual software tools

## The After Journey

- Waking up to booked appointments

- Automated inbox triage system

- Calm, confident staff

- Cohesive, integrated workflows

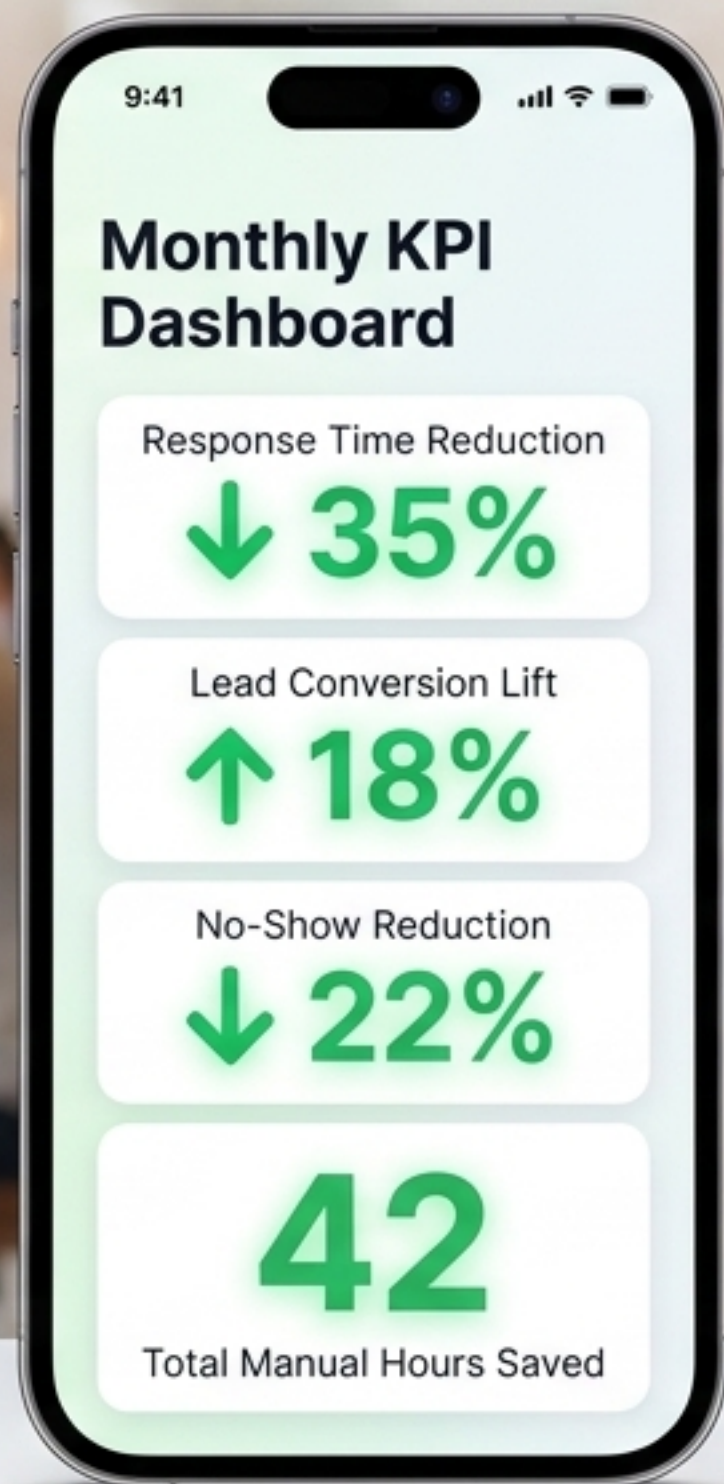

**The common thread:** Repeatable operations, strong local presence, zero in-house IT.

# Growing together through a progressive partnership

# Proving our value to your business every single month

### Our retention engine:

- Quarterly before vs after reviews
- Mandatory staff retraining cadences

**The common thread:** Repeatable operations, strong local presence, zero in-house IT.
